

Next-Generation Researchers International Development (N-GRID) Program (1st call)

This program is supported by the Daiichi Sankyo “Habataku” Support Program for the Next Generation of Researchers (https://www.daiichisankyo.co.jp/about_us/habataku/), which aims to strengthen the foundational research capabilities of next-generation researchers.

A total of 11 researchers applied for this internal call for proposals. Following the application deadline, the Selection Committee carefully reviewed all applications and selected 4 researchers for funding.
